menu | 2023

Established in 2019, Kanoko was born and based in Bandung, West Java. It used to be a 4 square meters small building and became a place to hang out. And we changed it to be a profitable place. We were very clear about what we wanted to do, and why we wanted to do it. We have carefully curated our shop and have kept it small and focused, to ensure that all our energy is concentrated on doing one thing, extremely well: offering exceptional experiences.

We understand the experience our customers expect and we want to deliver that experience through the right balance of sights, smells, tastes, and sounds which time and again appeal to their way of life- a personal experience each time they visit our Shop. This approach takes time, but to us it's worth it.

For the concept, we combine traditional Indonesian specifically Balinese nature aspect with Scandinavian accent, the aim is to make our café more comfortable and costumer have experience of calmness when they dine in.

Our  
Signature
